Numero inventario	55
N° campioni	02

The image shows two fossilized mollusk shells. The shell on the left is a cross-section showing the internal structure, including the siphon and the muscle scar. The shell on the right is a more complete view of the shell, showing the external structure and the siphon. A piece of aged, yellowed paper is placed behind the shells, with the handwritten text "Modello interno conchiglia acciavalve" written in cursive. The paper is slightly torn at the edges.
